INDEX TO VOLUME 40

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles, correspondence and society transactions. Biographies, Book Reviews, and Obituaries are indexed under these headings in their alphabetical order under the letters B and O, respectively.

Abdomen, abdominal crisis in childhood ... 1359

Abnormalities and Deformities: See also Monsters, Twins, and under names of diseases, organs and regions
- cleido cranial dysostosis ... 1357
- congenital absence of femur, patella, tarsal scaphoid and tachitism associated with other anomalies ... 830
- multiple malformations in a hypoplastic person ... 630
- relation of maternal pelvic disease to deformities in new born ... 105
- some congenital and birth deformities and advantage of early treatment ... 1330

Abscess: See also under names of organs and regions
- otogenous subdural abscess ... 199
- paratracheal: thrombosis of dura mater sinuses from jugular endophlebitis; sequelae of paratracheal abscess with autopsy ... *1058

Abt, A. F.: Ascites ... 1140
- Blood pressure in infancy and childhood: review of literature on determination of blood pressure in normal and in pathologic conditions ... *1285

Abt, I. A.: Chronic hemorrhagic nephritis ... 1358

Acetone in blood in fasting children, effects of insulin and epinephrine on ... *718

Acetylsalicylic poisoning ... 441

Achondroplasia, changes in vertebral column of new-born infant in chondrodystrophia ... 188
- hereditary deforming ... 405
- report of 2 cases ... 164

Acid, fatty; nature and rôle of fatty acid essential in nutrition ... 1102

Acid-base metabolism of organism with reference to urine; hydrogen ion concentration and ammonia coefficient of urine ... 863

Acidemia: See under Blood

Acidosis, alkalosis of vomiting and acidosis of advanced renal disease ... *705
- high acidity of urine not true acidosis ... 212
- in infancy; does it occur in epidemic form? ... 401

Acquired characters, inheritance of ... 895

Acrocontracture: See under Contracture

Acrodermatitis chronica atrophicans treated by sympathectomy ... 435

Acrodynia and miliary fever ... 424
- in breast fed infant ... 435
- two cases of ... 1129

Actinomycosis ... 1374

Adenoids, dyspnea due to inflamed adenoid 433
- effect of tonsillectomy and adenoidectomy on diphtheria immunity; persistently positive Schick tests in a small community ... *1032
- head-banging in young children and its relation to adenoids ... 692
- roentgentherapy of adenoid vegetations 203

Agglutination: fan agglutination by human milk and reaction of Landis ... 862
- fan agglutination in new born and its relationship to listeria monocytogenes ... 160
- fan hemagglutination ... 848

Agranulocytosis ... 1140
- sepsis with leukopenia in children ... 315, *516

Albumin digestion in intestine ... 883

Albuminuria, metabolism studies in nephritis, with special reference to relationship of protein intake to nitrogen retention, edema and albuminuria ... *493

Aldrich, C. A.: Differential diagnosis and prognosis in various clinical types of nephritis ... 678

Alkalemia: See under Blood

Alkalosis of vomiting and acidosis of advanced renal disease ... *705

Allergy: See Anaphylaxis and Allergy

Amberg, S.: Filtration of bacteria through animal membrane ... 1071

Amebiasis in southern states ... 107

Ameuse, J. W., appointed to Board of Medical Examiners ... 857

Amino-acid content of cerebrospinal fluid in healthy and sick children ... 1124

Amputation (lower leg) subsequent to infantile paralysis ... 1132

Amyotonia: See Myatonia

Anaphylaxis and Allergy: Arthus' phenomenon ... 1364
- effects of mercurochrome 220 soluble and milk protein upon anaphylaxis ... 153
- milk protein as an inhibitor of skin sensitization in guinea-pigs previously injected intradermally with pneumococci 151
- possible explanation for horse serum anaphylaxis in man ... 119
- reaction of eosinophils following serum injection in allergic and exudative children ... 189

Anderson, F. N.: Psychiatric aspects of enuresis ... *591, *818

Anemia, acute, hemolytic, in childhood ... *1063
- aplastic, cured case ... 886
- idiopathic in new-born ... 407
- iron treatment for hypochromic anemias ... 885
- v. Jaksch's ... 458
- liver treatment, critical review ... 421
- of dogs due to feeding onions ... 397
- physicochemical properties of blood with anemia ... 188
- severe, and hemorrhagic diathesis complicating celiac disease (maladie de Herter-Heubner) ... 1116
- severe rickets with anemia ... 160
- sickle cell ... 418, 922
- splenic, and congenital syphilis ... 185
- splenic: Gaucher's disease in infancy ... 1345
- splenic: phosphatide and cerebroside contents of liver and spleen in ... 886

Aneurysm, aortic, double aneurysm of ascending aorta and congenital bicuspid aortic valves with polyroid and ulcerous inflammation ... 191
- sudden death from rupture of cardiac aneurysm ... 189

PAGE

Angina, agranulocytic; sepsis with leukopenia (agranulocytosis) report of 10 cases 215, *515
scarlatinotoxic properties of hemolytic streptococci from cases of angina.... 863
Vincent's 1350
with diphtheria bacilli and diphtheritic anginas of benign course in children immunized with anatoxin..... 639
Angioma, congenital capillary angioma of parotid gland..... 649
treatment of cavernous angiomas covered with healthy skin..... 1139
Ankylostomiasis: See Hookworm Infestation
Anomalies: See Abnormalities and Deformities; and under names of organs and regions
Anorexia: See under Appetite
Anthropometry: See also under Weight
height and weight of children in 3 communities of Porto Rico..... 159
sexual differentiation by body measurements and proportions in children aged 7 years..... 445
Antitoxins, rôle of milk and colostrum in transmission of antitoxins to human being 1322
Anton-Schmieden's puncture in intracerebral tension..... 428
Aorta, coarctation of..... 1100, 1324
Apnea, attacks of..... 408
Appendectomy and invagination in intussusception 1133
Appendicitis in children..... 438
meningitis, encephalitis, case report..... 1302
occurring during epidemic of upper respiratory tract infection, study of 42 cases 437
Appendix, torsion of..... 201
Appetite, chronic anorexia, problem of.... 419
influence of excessive milk feeding on gastric motility and its relation to chronic anorexia..... 908
treatment for anorexia..... 885
Arachnodactylia: See under Fingers
Arnold, D. P.: Massive suprarenal hemorrhage in new-born infant..... *1053
Aronson, J. D.: Present status of immunization against tuberculosis with B. C. G. 1155
arsenic findings in eczema and allied conditions 661
Arsphenamine, depressed bone marrow function from arsphenamines (including a type of so-called agranulocytosis).... 648
question of arsphenamine-resistant syphilis 181
Arteries, arterial changes in poisoning with irradiated ergosterol (viosterol).. 157
Arteriosclerosis, action of irradiated ergosterol and relation of changes produced to arteriosclerosis..... 156
hypervitaminosis D and arteriosclerosis..1327
Arthritis deformans, endocarditic form of.. 884
deformans, (Still's disease)..... 188
Arthus' phenomenon..... 1364
Ascariasis and suppurative pleuritis..... 1118
Aschoff Nodule: See under Rheumatic Fever
Ascites 1149
Aspergillus infection, primary, of skin complicating microsporon..... 436
Asphyxia neonatorum, demonstration of Drinker respirator with discussion of its uses in asphyxia neonatorum.....1371
resuscitation in.....1332

PAGE

Asthenia: recovery metabolism in obese and asthenic children and in those with heart disease.....1318
Asthma, bronchial..... 650
bronchial, prognosis and treatment of.. 216
cat (treated)..... 651
course of.....1345
thymic 1116
Athrepsia: See under Nutrition
Auslander, M. M.: Patent omphalomesenteric duct associated with incompletely patent urachus, report of case.....*1276

B. C. G.: See under Tuberculosis
Bacillus: See Bacteria
Backwardness, child welfare institutions for backward children.....1137
Bacteremia, diphtheritic, during paratyphoid fever..... 413
fetal bacteremia: contribution to mechanism of intra-uterine infection and to pathogenesis of placentitis..... 634
Bacteria, atypical coli and milk infection.. 642
breslaviensis as cause of furunculosis and of purulent meningitis..... 201
filtration of bacteria through animal membrane 1374
Bacteriophage, resistance of scarlet fever streptococci to action of..... 626
use of bacteriophage filtrates in treatment of suppurative conditions, report of 300 cases 1128
Bailey, L. G.: Diagnostic value of sodium fluorescein in epidemic cerebrospinal meningitis *493
Bakwin, H.: Dosage of ultraviolet ray for infants with tetany.....1139
Bakwin, R. M.: Dosage of ultraviolet ray for infants with tetany.....1139
Banti's Disease: See Anemia, splenic
Barash, L.: Subcutaneous fat necrosis..*337
Barnett, E. J.: Use of phenobarbital in feeding of infants..... 213
Barthelme, F.: Mental and physical development of children prematurely born; preliminary report on mental development *1000
Bartlett, F. H.: Study of water and mineral metabolism of epileptic children on diets high in carbohydrates, proteins or fats..... 901
Baths, effects of warm immersion baths upon circulation.....1318
Behavior disorders in chronic epidemic encephalitis 1120
problems of children with special reference to delinquency.....*1076
relation of endocrinopathic states to conduct disorders of children.....1120
Bessredka reaction, diagnostic and prognostic value of Bessredka reaction for tuberculosis 186
Bigler, J.: Sepsis with leukopenia.. 215, *515
Bilderback, J. F.: Hyperpyrexia of one year's duration of unknown etiology.. 686
Bile ducts, congenital atresia of.....*571, 871
salt; effect of oral administration of bile salts on intestinal reabsorption in celiac disease.....1346
salt hemolysis in new-born infants and its inhibition by blood serum.....*1039
Billingsley, J. A.: Hyperplasia of corpora adiposa buccarum in new-born infant.*813
Biographies:
Armstrong, George.....*1094
Beardsley, Hezekiah, 1748-1790.....*146
Heberden, William, picture of..... 858

BIOGRAPHIES—Continued PAGE

Heberden, William, the elder, 1710-1801.*619
Rush, Benjamin, 1745-1813.....*389
Soriano, Geronimo.....*851
Underwood, Michael.....*1312

Birth Trauma: See under Newborn

Bismuth treatment of interstitial keratitis, 643

Bivings, L.: Staphylococcus albus septicemia with osteomyelitis of pubic bone *1262

Bladder, congenital bladder outlet obstruction 1353
cord bladder treated by section of presacral nerve 1372
disturbances in bladder function in Feer's vegetative neurosis.....196

Blood, acetone of fasting children, effect of insulin and epinephrine on *718
acid-base equilibrium; changes in acid-base equilibrium of blood in rachitic children treated with ultra-violet rays, 161
acidity; determinations of blood acidity especially in children with eczema....1131
alkalemia in diarrhea.....390
bile salt hemolysis in new-born infants and its inhibition by blood serum....*1039
calcium content of blood serum in D-hypervitaminosis 860
calcium, diffusible blood serum calcium in normal new-born infants.....*549
capillaries in tuberculous children with purpura 441
carbon dioxide absorption curve of infants fed lactic acid, hydrochloric acid and boiled cow's milk.....*1010
changes in new-born following ultra-violet therapy.....881
chemistry in diseases of skin.....980
chemistry, inorganic blood chemistry in osteochondritides *1250
chemistry, response of plasma water and electrolytes to elevation of body temperature 1317
cholesterol, change in blood cholesterol following inunctions of hydrous wool fat and irradiation.....685
cholesterol of blood of diabetic children.1113
circulation: effects of warm immersion baths upon circulation.....1318
clinical changes following administration of phosphorus in rickets.....*1177
coagulation time, effect of vitamin D on. 1354
heliotherapy and peripheral blood.....*484
influence of adrenal cortex on blood picture 1319
phosphatemic curve of normal and rachitic organisms.....1105
phosphorus content at different age periods, physiologic variations in.....*725
physicochemical properties in anemia.... 188
picture in new-born and breast fed child of tuberculous mother.....181
plateleta in infancy.....1100
plateleta in new-born.....809
pressure; hypotension in children.....669
pressure; review of literature on determination of blood pressure in normal and in pathologic conditions.....*1385
pressure, systolic, in early infancy.....649
proteins; hyperglobulinemia and hypoglobulinemia 1100
relation of acetoacetic acid to diabetic coma and cause of death.....882
sugar; alterations in sugar content of blood of spinal fluid in cerebral disease 195
sugar and phosphorus relations in blood glycolysis 899
sugar; clinical and experimental researches on course of alimentary blood sugar curve in children with increasing obesity 405
sugar; investigation of low blood sugar curves 1119
sugar; researches in glycolysis in children with exudative diathesis.....202

Blood—Continued PAGE

total nitrogen index of blood, urine and feces in infant considered in relation to different types of feeding.....1100
transfusions, experiences with.....1154
viscosity 862

Blount, W. P.: Chondrodysplasia.....*327

Body Height; Body Weight: See under Anthropometry; Weight

Bonar, R. E.: Diagnostic value of sodium fluorescein in epidemic spinal meningitis *493

Bone, action of parathyroid hormone on calcium content of bones of growing animals 157
composition; mechanism of healing in experimental rickets.....806
delayed ossification in congenital syphilis 645
developmental diseases in.....882
disturbance in congenital syphilis; osteochondritis 646
fibrocystic disease of upper end of humerus 1115
growth; cleido-cranial dysostosis.....1357
growth; 2 cases of craniofacial dysostosis of Crouzon 635
marrow function, depressed, from arsphenamines (including a type of so-called agranulocytosis) 648
paradoxic condition of normal animal bones on feeding with viosterol.....1327
relation of parathyroids in disorders of, 883
suppuration and renal calculi in children *804
syphilis of skeleton other than long bones 886
syphilis; roentgen picture of lesions of long bones in nursing infants caused by congenital syphilis 185
tuberculosis; carbon arc light treatment in bone and joint tuberculosis.....644

BOOK REVIEWS:

Basis of Epilepsy; E. A. Tracy.....1379
Cures thermales et climatiques chez les enfants; M. Villaret and P. Saint-Girons 936
Diseases of the Urinary Tract in Children; E. Beer and A. Hyman.....935
Dyspepsie Transitoire des Nourrissons; A. G. Alarcón.....460
Grundlagen der Orthodiagraphischen Herzgrozen und Thoraxbreitenbeurteilung im Kindesalter; O. Kirsch.....459
Handbuch der Kindertuberkulose. Volume 2. Edited By S. Engel and C. von Pirquet 935
Infant Nutrition; W. McKim Marriott.....221
Konstitutionstypen der Kinder; W. S. Krasnsky 1156
Lymphacmoide Drusenfieber; E. Glanzmann 919
Medical and Surgical Reports of the Episcopal Hospital, Philadelphia.....1380
Medical and Surgical Year Book, Physicians Hospital of Plattsburgh.....460
Medizin, Gymnastik und Padagogik im Kampfe gegen die Tuberkulose (Harmonische Behandlung); E. Kisch.....220
Mental Aspects of Stammering; C. S. Bluemel 1379
Nursing and Diseases of Sick Children, A Text Book for Nurses and Welfare Workers; edited by A. Moncrieff.....459
Ohrenleiten des Kindes; M. Meyer.....699
Physical Diagnosis; R. C. Cabot.....1157
Practical Applications of Heredity; P. Popenoe 1380
Practical Medical Dictionary; T. L. Stedman 1158
Psychology of Childhood; E. J. Swift... 222
Publications from Robert Dawson Evans Memorial for Clinical Research. Endocrine Studies.....700

BOOK REVIEWS—Continued PAGE

Quelques Dermatoses Communes de l'Enfance; A. Boutelier 1380
Regimes du Nourrisson: E. Lesne and R. Clement 222
Revision der Neurastheniefrage. Die klinische und pathogenetische Neuroorientiorung zum Neurosthenie Problem; L. Szondi 221
Standards for Maternity Care, Children's Welfare Federation 1158
Therapie an den Wiener Kliniken; E. Landesmann 1378
Tuberculosis among Children, J. A. Myers 699
Ultraviolet Light and Vitamin D in Nutrition; K. Blunt and R. Cowan...1379
University of Iowa, Studies in Medicine 222
Vomissements chez le nourrisson: E. Lesné and M. Coffin 936

Borman, M. C.: Bone suppuration and renal calculi in children *804
Borovsky, M. P.: Arthus' phenomenon....1364
Bosshardt, F. H.: Nutrition of children on mixed and vegetable diet *285
Bradford, W. L.: Acute obstructive laryngitis: clinical and bacteriologic study in 66 cases *298
The relationship of deficiencies in vitamin A and D to infection.... 695
Brain, abnormality of cerebrum and leptomeninges simulating intracranial tumor 191
abscess, otogenous subdural abscess.... 199
anatomic changes in brains of new-born infants 1331
cerebral dominance as a factor in acquisition of spoken and written languages 1110
disease; alterations in sugar content of blood and spinal fluid in cerebral disease 195
disease; clinicopathologic study of disease of brain in early childhood with a predilection for striatal system.... 890
diuretic hormones in brain 628
encephalography in cases with fixed lesions of brain *227
functional circulatory disturbances and organic obstruction of cerebral blood vessels with contribution to pathology of pertussis eclampsia 410
hemorrhage; occurrence and manifestations of thrombosis especially sinus thrombosis cerebral and dural hemorrhages, and embolism after acute infectious diseases 412
pressure in: See Cranium, pressure in
syphilis, case of 186
Branchial apparatus 187
Brenneman, J.: Scurvy 1308
Sepsis with leukopenia 215, *515
Vis medicatrix naturae in pediatrics ... *1
Brigman, L. R.: Diabetes insipidus.... 458
Brodie, M.: Active immunization against poliomyelitis in monkeys 923
Bronchiectasis treatment for 888
Brown, A.: New cereal mixture containing vitamins and mineral elements...*791, 903
Buchman, J.: Inorganic blood chemistry in osteochondritides *1250
Buffer capacities of various milks and proprietary infant foods *260
Bullock, J. R.: Physiologic variations in inorganic blood phosphorus content at different age periods *723
Bunting, R. W.: Problem of dental caries. *530
Bupthalmia and nevus 197
bilateral, with multiple congenital abnormalities in one eye 838
with normal unaided vision, case of 838

PAGE

Butler, C. D.: Meningitis, appendicitis, encephalitis 1362
Butter, children with a distaste for butter 162

Calcium, action of parathyroid hormone on calcium content of bones of growing animals 157
and phosphorus metabolism in diarrhea with tetany 399
and phosphorus metabolism in some older children on mixed diet including large or small quantity of milk....1324
antiedemic actions of calcium in experimental irritative edemas 420
chloride, influence on tissue oxidation...1320
content of blood serum in D-hypervitaminosis 860
hypermineralization resulting from intensive treatment of rickets.... 162
ionic content of mother and embryo....1318
metabolism in acute stages of chorea.... 192
significance to clinical medicine of studies in calcium and phosphorus metabolism 630
studies of calcium and phosphorus concentration in small and large intestines 1325
therapy in phlyctenular diseases.... 198
utilization of ingested calcium salts.... 897
Calvin, J. K.: Circumscribed perforating tuberculosis of skull 1148
Camp for diabetic children 152
Campbell, M. F.: Urinary calculi.... 451
Cancer, congenital malignant neoplasm in liver 1117
of female genital tract in childhood.... 640
Capillaries, permeability in inflamed area.. 397
Carbohydrate metabolism; circulatory failure of diphtheria; carbohydrate metabolism in diphtheria intoxication 1106
metabolism of carbohydrates in rickets.. 631
poor nutrition.... 401
researches on type of carbohydrate in infants; experiences with Kinderzucker and disturbances of nutrition 634
researches on digestion of carbohydrate; tests of sugar tolerance in children with normal intestines 633
Carbon arc light treatment in bone and joint tuberculosis 644
dioxide absorption curve of infants fed lactic acid, hydrochloric acid and boiled cow's milk *1016
dioxide, effect of inhalation of mixtures containing carbon dioxide on respiration of healthy and sick children 1319
Carbonic Acid: See Carbon dioxide
Cardiospasm: See Stomach, cardiospasm
Carotinemia: See Blood, carotin in
Carr, W. L.: Observations on thymus gland 688
Casein, optimum conditions for precipitation of casein from human and cow's milk *787
Caulfield, E.: Early case of pyloric stenosis *1069
Cauterization, results with the Hippocratic Biers' method of cauterization.... 643
Celiac Disease 422, 457, 650
effect of oral administration of bile salts on intestinal reabsorption in celiac disease 1346
severe anemia and hemorrhagic diathesis complicating celiac disease (maladie de Herter-Heubner) 1116
Cells, giant cells in inflammation of lungs..*247
Cephalhematoma 408
Cephalocele, three cases of cephalocele.... 193
Cereal mixture containing vitamins and mineral elements *791

Cereal mixture—Continued PAGE
new cereal mixture containing vitamins and mineral elements 903
Cerebrospinal Fever: See Meningitis
Cerberospinal Fluid; alterations in sugar content of blood and spinal fluid in cerebral disease 195
aminio acid content of spinal fluid in healthy and sick children 1124
changes in congenital syphilis 186
chemical study 429
chlorides in cerebro-spinal fluid in meningitis 1334
in meningitides especially in tuberculous patients 430
in myxedema 187
in tuberculous meningitis 416
of premature infants: results of series of spinal puncture in 170 cases with reference to origin of physiologic xanthochromia in new-born.....*741
Chandler, A. B.: Nursery school studies... 928
Chart, new infant feeding chart.....*503
Chest: See Thorax
Chickenpox and tuberculosis 176
encephalomyelitis following varicella.....1336
familiar occurrence of nephritis with varicella 176
herpes ophthalmicus coincident with varicella in adult 873
herpes zoster and varicella 1130
period of infectivity and serum prevention of 410
two cases of varicella with neurologic complications 1122
vaccination against chickenpox by Kesmarszky method 173
with blood picture simulating leukemia..*1282
Child Welfare, Association internationale pour la protection de l'enfance..... 152
care of morally abandoned children in Poland 442
certain aspects of White House conference on child health and protection 668
child in moral danger and juvenile courts in Belgium 441
correctional institutions for girls..... 204
courts for children and auxiliary services 1137
finding homes for unfortunate children in Norway 666
great necessity for protection of homeless mothers and infants 1138
Institute of pediatrics and child care of School of Medicine, Montevideo,.....1134
juvenile court, is it a solution?..... 442
juvenile courts and auxiliary service in France 666
organization and functions of child welfare campaign in Mexico..... 206
practical value of mental hygiene in child welfare 104
protection of children in Paraguay..... 206
protection of school child in Chile..... 206
Children, conservation of school child's health 1142
education, health and health education..1354
habit clinics 1353
hygiene; open-air treatment and clothing of children 1357
Leonard Bourdon's system of institutional discipline 441
problem child 205, 655
problems of education 206
prophylaxis of nervous child 1340
subnormal; clinical and biochemical study of subnormal child 1325
Chlorides in cerebro-spinal fluid in meningitis 1334
Choked Disk: See Neuritis, optic
Cholesterol of blood of diabetic children..1113
Chondroblastoma growing in vein..... 988
Chondrodysplasia, unusual case.....*337

B C G vaccination, results of 182
B C G vaccination, results in Amsterdam 884
B C G vaccination, value of tuberculin test in determining value of 879
Bucculax reaction, diagnostic and prognostic value of 186
blood picture in new born and breast fed child of tuberculous mother 184
carbon arc light treatment in bone and joint tuberculosis 644
"cured" 185, 878
collateral inflammation of Tendeloo 184
condition of capillaries and thrombocytes in tuberculosis especially with purpura 417
correlation of leucocyte interpretation of Medlar with clinical findings 1339
course of human tuberculous infection 1336
diagnosis; how reliably is active tuberculosis diagnosed by skin reaction? 185
experimental; effect of rachitic diets; resistance to tuberculosis decreased by adding cod liver oil; effects of disturbing optimal ration between calcium, vitamin C and vitamin D 395
fate of children in tuberculous households, examination of Lancashire report 415

Tuberculosis—Continued PAGE
Ferran anti-alpha vaccine 647
in infancy 413
in school children 180, 181
incipient, value of cod liver oil for underpar children of school age 1103
Langer vaccine in immunization 1320
miliary, complicated by thrombosis of posterior cerebral artery and tuberculous meningitis 181
morphologic development of children infected with 881
of hip, treatment 209
of skull, circumscribed perforating 1148
of spine of syphilitic origin 183
Pirquet skin reaction with human and bovine tuberculin in 880
prophylaxis 181
pulmonary, clinical value of monocyte count in pulmonary tuberculosis; studies by supravital staining technique 1339
pulmonary (epituberculosis) 879
pulmonary, in childhood, effect of deep x-ray therapy on 416
pulmonary, occurrence of bovine type of tubercle bacillus; its rôle in pathogenesis 182
pulmonary, treatment with vitamin D (viosterol) 648
pulmonary; tuberculous lung cavitation, 458
question of complete healing 418
roentgen diagnosis of intrapulmonary and extrapulmonary cavity formation 185
rôle of child in prevention of 1341
rôle of leucocytes in 1338
specificity of light action in 644
studies on children coming from tuberculous environment in out-patient department 880
subacute miliary tuberculosis; report of fatal case in infant, with roentgenologic evidence of healing *1269
surgical tuberculosis and allied conditions, medical treatment 182
suspected juvenile tuberculosis; evaluation of symptoms and signs *753
treatment 414
treatment for rickets and tuberculosis 184
ultraviolet light in corneal tuberculosis 396
vaccination, state of 880
Vernes' reaction; diagnostic and prognostic value 647

Tumor: See also Cancer; Sarcoma; and under names of organs and regions
bilateral ranula in newborn 1330
radium treatment of cavernous hemangioma and of epulis 431
two cases of secondary tumor of heart 1342

Tumpeer, I. H.: Congenital atresia of bile ducts *571
immunologic phenomena 1147
Open safety pin swallowed by a 10 months old infant *88

Twins, growth in length and weight in twins; knowledge of heredity 652
is there greater resemblance between dizygotic than monozygotic twins with reference to weight and length? 870
mongolism in one of twins 1340

Typhoid, afebrile 876
encephalitis following 1537
intra-uterine transmission of 1107

Typhus, 600 cases 647

Uhr, J. N.: Subacute miliary tuberculosis; report of fatal case in infant with roentgenologic evidence of healing *1269

Ulcerative disease of fetus 635

Ultraviolet Rays, amount of ultra-violet radiation necessary to cure rickets 629
changes in acid-base equilibrium of blood in rachitic children treated with 161

Ultraviolet Rays—Continued PAGE
dosage in tetany 866, 1139
effects on corneal tuberculosis 396
therapy, changes in blood of new-born following 881

Umbilical cord, varix of 868

Umbilicus, diphtheria of *968
gonorrheal epididymitis and omphalitis 425

Unger, L.: Prognosis and treatment of bronchial asthma 216

Urachus, patent omphalomesenteric duct associated with incompletely patent urachus, report of case *1276

Uremia in children 420

Ureter, congenital dilation of 210
ectopic, and pyonephrosis in an infant 190

Urethra, congenital stenosis of posterior urethra 636

Urinary Tract calculi 451, 894
persistent pyuria and abnormalities in urinary tract 680

Urine, acid-base metabolism of organism with reference to urine; hydrogen ion concentration and ammonia coefficient of urine 863
high acidity of urine not true acidosis 212
incontinence *10, 1114
incontinence, essential, nocturnal 1116
incontinence, psychiatric aspects *591, *818
incontinence, subarachnoid injection of epinephrine in 194
observations on gastric secretion and its relation to urinary reaction 1320
pentosuria in children, with laboratory data on 4 cases *1193
pus in; persistent pyuria and abnormalities in urinary tract 680
pus in; tetany convulsions during pyuria 1110
pus in, unusual causes of 1345
surface tension of 156

Urography, new method by intravenous injection 1369

Uroselectan, new method of urography by intravenous injection of 1369

Urticaria, phenomena of shock in 201

Uterus, multiple vaginal and cervical polypi 204

Vaccination. Encephalitis following: See under Encephalitis
studies in revaccination, especially in relation to duration of skin immunity in intracutaneous inoculation 1337

Vaccine, purification of animal vaccine 1100

Vaccinia: See Smallpox

Vagina, dysentery bacilli in vaginal secretions 1113
foreign bodies in 186
multiple vaginal and cervical polypi removed from 204

Vaginitis, prevention of gonorrheal vaginitis in babies' homes and hospitals 1133

Varicella: See Chickenpox

Variola: See Smallpox

Varix of umbilical cord 868

Vegetable and mixed diets, nutrition of children on *285
proteins in infant feeding 866

Vegetative diathesis in children 1123

Veins, chondroblastoma growing in bones venae azygos 398

Vernes reaction in early diagnosis of tuberculosis 647

Vernix caseosa, spots on knees and other remains of 436

Vertebra, scoliosis due to absence of halves of 2 vertebrae 664
